

Victoria Bian

UI/UX Designer, Developer
www.victoriabian.com

I'm an avid student at UC Berkeley, designer & developer. I am currently in my second year studying Economics and Computer Science, and Cognitive Science (with a junior standing). I love fiddling around with digital art and creating cool projects that can change the way we live. Although I have good knowledge of many programming languages and design tools, I'm always learning new stuff. I love what I do and hope to learn more for the rest of my life!

University of California, Berkeley

2013-2017

Bachelor of Arts (B.A.), Cognitive Science with computational modeling concentration

Bachelor of Arts (B.A.), Economics, and Minor in Computer Science

PROFESSIONAL

Lab Assistant at University of California, Berkeley - EECS Department

January 2014 - June 2014

Answered burning questions for students in computer science classes, Helped monitor quizzes, and assisted the GSIs in leading class activities.

Web Designer, CS 10 Web Development Team at UC Berkeley

October 2014 - Present

CS 10 is an introductory computer science class at UC Berkeley. Its website design hasn't been changed since the first time it was built. As a member of the web development team, I worked with TAs to redesign the main website for this course. We did user research based on the response from Piazza poll, and asked around the students about the problems they have faced with our website. During this process, we reorganized the calendar on home page to present students a more straight-forward way to keep track of their works, and we also came up with a simple layout of elements to get rid off redundant information and give more attention to hidden features.
